Subject: Message from Eagles Landing Subdivision Homeowners Association - Pool Chemicals-
DO NOT ENTER POOL AREA - [#XN276016]

Please do not reply to this message.

Residents,

There are chemicals being poured into the pool today. PLEASE avoid the pool area for the next 48hrs as the chemicals are extremely harmful. The HOA will not be liable for any injuries that result from this if the warning is not followed.

These chemicals are harsh in order to properly clean the pool. The only person allowed on/in the pool house premises during this time is the pool vendor.

Thank you for your understanding and be on the lookout for another pool update as we get it ready for the upcoming spring/summer season.

Sincerely,

Magnolia Management Services, Inc. on behalf of Eagles Landing Subdivision Homeowners Association
